

Creating Teambooks with

Our Teambooks are a lot of fun to put together. However, you do need some info about the players in it to make it really special. A book with photos and positions is good, but add player stats and their favorite moments of the season and it becomes something great!

This form will help you get started!

Do you have:

A Team photo?

This makes a great cover picture!

Photos of each player?

You're going to want to see who everyone is!

A Photo of the Coaches?

They're a big part of a fun and successful season!

Action shots?

Who doesn't like to see players in action?

Now that you have all the photos you need, let's get the player info! On the How-To page at *Teambooks.ca* we have a **Player Info Form** that you can print out and give to each player on the team. They fill it out and you will have the needed information for the Teambook. Once you have everything, you can get right down to the fun stuff!

Enjoy!
